

## Christ Crucified

Who could understand the depth of Your plan, to bring sinners home?  
Will we ever know the size of the cost? The shame of the cross?

So foolish to human wisdom but to Your children it's life and power

*We preach Christ crucified, it's the only way for souls to be saved who have gone  
astray*

*We preach Christ raised to life and now He reigns  
Interceding for us till He comes again.*

Self sufficient ways run through our veins, fighting Your grace  
But Your grace invades, stronger than flesh, demanding a change

So foolish to human wisdom but to Your children it's life and power

It has the power to break in  
And wash away every sin  
The only hope for our generation  
One day He will come again  
And life will truly begin  
Restored to how we were meant to be
